

4 Way Pipe Stands

Visit us online at www.siouxsecondarycontainment.com

Protect workers and the environment by using a product that delivers the durability and construction you expect from Dura Life® Containment Systems.

With the **durable plastic construction**, our 4 way pipe stands will easily comply with grounding and safety regulations. The orange LLPE material is strong and won't deteriorate over time. The 4 way pipe stand is designed with a catch pan to catch leaks from pipe connections including tees, couplings, or cross connections.
